Project Work Performed:

- Continued interim construction survey staking to identify subgrade elevations.
- Continued the mass excavation, loading, hauling and stockpiling of materials from within the Category 1 Landfill footprint.
- Continued rough grading of the Category 1 Landfill side slopes and floor.
- Continued managing mass excavation materials within the stockpiles located near the former Zinc Plant.
- Continued compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.

Work Projected Next Week:

- Continue interim construction survey staking to identify subgrade elevations.
- Continue the mass excavation, loading, hauling and stockpiling of materials from within the Category 1 Landfill footprint.
- Continue rough grading of the Category 1 Landfill side slopes and floor.
- Continue managing mass excavation materials within the stockpiles located near the former Zinc Plant.
- Continue compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.
Weekly Construction Progress Report #23  
(Continued)

Period: 4/15/12 through 4/21/12

Action Items/Safety:
• Loss Prevention System (LPS) tools
  – Loss Prevention Observation (LPO) – 2 (42)
  – Job Safety Analysis (JSAs) – 0 (4)
  – Near Loss – 0 (4)
  – Minor Equipment Damage – 0 (3)
  – Incidents – 0 (2)
  – Stop Work Authority 0 – (6)

Prepared by EJ Suardini, April 24, 2012
