Project Work Performed:

- Continued interim construction survey staking to identify subgrade elevations.
- Continued compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.
- Continued to collect field nuclear density testing to confirm compaction requirements.
- Continued processing existing crushed concrete to remove excess woody and metal debris.
- Continued the relocation of Category II materials from Stockpile #2 to the Southwest Fill Area.
- Continued the installation of geosynthetics within the Category I Landfill footprint. Geosynthetic components include a Geosynthetic Clay Liner (GCL), 60-mil HDPE Flexible Membrane Liner (FML) and a Geosynthetic Drainage Composite (GDC).
- Began backfill activities associated with the geosynthetic anchor trench.

Work Projected Next Week:

- Continue interim construction survey staking to identify subgrade elevations.
- Continue compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.
- Continue to collect field nuclear density testing to confirm compaction requirements.
- Continue processing existing crushed concrete to remove excess woody and metal debris.
- Continue the relocation of Category II materials from Stockpile #2 to the Southwest Fill Area.
- Complete the installation of geosynthetics within the Category I Landfill footprint. Geosynthetic components include a Geosynthetic Clay Liner (GCL), 60-mil HDPE Flexible Membrane Liner (FML) and a Geosynthetic Drainage Composite (GDC).
- Complete backfill activities associated with the geosynthetic anchor trench.
- Complete grading activities within the PBA Channel.
Weekly Construction Progress Report #75
(Continued)

Period: 5/5/13 through 5/11/13

Action Items/Safety:
- Loss Prevention System (LPS) tools
  - Loss Prevention Observation (LPO) – 2 (143)
  - Job Safety Analysis (JSAs) – 0 (10)
  - Near Loss – 0 (10)
  - Minor Equipment Damage – 0 (4)
  - Incidents – 0 (2)
  - Stop Work Authority 0 – (7)

Prepared by EJ Suardini, May 14, 2013
