

Weekly Construction Progress Report #27

Period: 5/13/12 through 5/19/12

Project Work Performed:

- Continued interim construction survey staking to identify subgrade elevations
- Continued the mass excavation, loading, hauling and stockpiling of materials from within the Category 1 Landfill footprint.
- Continued rough grading of the Category 1 Landfill side slopes and floor.
- Continue breaking the remaining material from within the Category 1 Landfill footprint.
- Began excavation of diesel impacted soils located in the northeast corner of the Category 1 Landfill footprint.
- Continued managing mass excavation materials within the stockpiles located near the former Zinc Plant.
- Began the removal of slag material outside of the southwest corner of the Category 1 Landfill footprint.
- Continued compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.

Work Projected Next Week:

- Continue interim construction survey staking to identify subgrade elevations.
- Continue the mass excavation, loading, hauling and stockpiling of materials from within the Category 1 Landfill footprint.
- Continue rough grading of the Category 1 Landfill side slopes and floor.
- Continue excavation of diesel impacted soils located in the northeast corner of the Category 1 Landfill footprint.
- Continue breaking the remaining material from within the Category 1 Landfill footprint.
- Continue managing mass excavation materials within the stockpiles located near the former Zinc Plant.
- Continue the removal of slag material outside of the southwest corner of the Category 1 Landfill footprint.
- Continue compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.
