Weekly Construction Progress Report #82

Project Work Performed:

- Continued interim construction survey staking to identify subgrade elevations.
- Continued compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.
- Continued to collect field nuclear density testing to confirm compaction requirements.
- Continued plant slope stabilization activities. Activities will include the removal of loose material from the slope in Area 1 and backfilling Area 3.
- Completed the construction of sump components within the CAT 1 Landfill.
- Continued to screen select protective layer materials to be placed within the CAT I Landfill. Materials will be screened to meet the technical specifications identified within the Construction Quality Assurance Plan (CQAP).
- Continued the installation of the geosynthetic protective layer within the CAT 1 Landfill.
- Began the excavation of anchor trenches along the landfill side PBA slopes in preparation of geosynthetic and ACB installation.

Work Projected Next Week:

- Continue interim construction survey staking to identify subgrade elevations.
- Continue compliance monitoring including air monitoring, weather monitoring, SWPPP monitoring and fugitive dust monitoring.
- Continue plant slope stabilization activities. Activities will include the removal of loose material from the slope in Area 1 and backfilling Area 3.
- Continue to screen select protective layer materials to be placed within the CAT I Landfill. Materials will be screened to meet the technical specifications identified within the Construction Quality Assurance Plan (CQAP).
- Continue the installation of the geosynthetic protective layer within the CAT 1 Landfill.
- Continue the excavation of anchor trenches along the landfill side PBA slopes in preparation of geosynthetic and ACB installation.
- Site construction activities will be suspended from July 3rd through July 8th in observance of the holiday.
Weekly Construction Progress Report #82 (Continued)

Action Items/Safety:
• Loss Prevention System (LPS) tools
  – Loss Prevention Observation (LPO) – 2 (157)
  – Job Safety Analysis (JSAs) – 0 (10)
  – Near Loss – 0 (10)
  – Minor Equipment Damage – 0 (6)
  – Incidents – 0 (2)
  – Stop Work Authority 0 – (7)

Prepared by EJ Suardini, July 2, 2013

Plant slope stabilization activities within Area 3

Progress Legend

Red (complete) – Installed 1-foot (2-inch minus) protective cover

Blue – Installed 1-foot (6-inch minus) protective cover

Green – Installed 2-foot (3/8-inch minus) protective cover

Yellow – Installed geotextile, sump aggregate
