

Legend

- Sample Locations

Notes:

- PCB-03 sample locations are projected in front of the stack.
- Two samples were collected at each location. One sample was collected at the 0'-0.5' interval and one sample was collected at the 0.5'-1.0' interval. If concentrations were less than 1.0 mg/kg then the next step out sample was not analyzed.
- Blue = shallow sample (0'-0.5' interval)
Black = deep sample (0.5'-1.0' interval)
